Our school has chosen theme of outdoor activities. Types including¹⁰ soccer, basketball, bicycle racing. My class has chosen soccer theme. That we will organize for the entire city and charity.³⁰ The income from soccer activities will all go to charity. Our expectations are that it's gonna be very busy. we⁵⁰ have made many commercials like flyers. My class has been⁶⁰ in charge for the soccer matches. ~~to~~ to organize and control.⁷⁰

I have put together teams with my classmates. This our first time we participate in as a project of such a⁹⁰ large scale. We start in the morning until noon. There are so much interest in what we do, that even the mayor have founded¹³⁰ a good idea, and maybe we are noticed by international^{news} channels.

If it's a success¹⁴⁰ and we raised

enough money, we hope that next
year we will organize it again.
We want to thank everyone who has
helped and contributed to this activity.

What are the three hardest things about learning a new language?

Learning a new language is hard but not untuatable. There are three hardest things about learning a new language: ~~that~~ ~~they are~~ the fear of something unknown, the accent of the language and not having enough will. Everybody have some kind of fear when we are in front with something unknown not important if it is a ~~langue~~ learning a new language or something else, because every language have a different accent and it's different hard to learn to speak that language with his correct accent. Also the will is having a big effect about learning a new language, if you don't have big will to learn ~~that~~ that language you will waste your time for nothing. My opinion is that everybody should have will for leavering a new language because with every learned language we are teacher for something

to be motivated to learn a new
language even it is hard because
~~in the future he will~~ see that it
will pay off.
