

## 6 THE LAST THING THAT MADE ME LAUGH

25 points

You have been asked to write an essay for the school magazine on the topic: *The last thing that made me laugh*

Write an essay, describing the event, where it happened, who you were with, etc.

The essay should be 140-180 words.

I am trying to recall my memory, about events or things that made me really (laugh) but there are many events and things that.

I really had a great laugh so it is difficult for me to decide about which one, I'm going to write.

When you are surrounded with great and honest friends, you always have a nice time sometimes when you talk (with) something or someone or when they tell jokes.

Couple days ago while we were sitting around our (school) and telling jokes and laughing a girl passed

She was walking slowly and keeping her head up, she was a little (tossy), so when she got at the stairs and where she made her first step she fell down. We saw her but we felt sorry and we couldn't say anything, but one of the guys who was with us (said) to the girl, don't be afraid nobody saw you.

After that we all started on a memory laugh but this was the best which I remember that made me laugh.
